Dear Partners,

We are very pleased to announce the launch of new Summer School Program at the University of Lausanne!

We believe that our intensive programs will allow your students to discover our campus in Lausanne, while deepening their knowledge in specific areas. The Summer schools are open to students from across the world, at undergraduate, graduate or doctoral level, depending on the schools. You can find the selection criteria, application procedures and all the relevant information on the website UNIL Summer Schools.

In 2017, the University of Lausanne will offer the following courses:

- Transitional Justice, 12 - 23 June
- Intensive French courses, 3 July - 1 September
- Undergraduate Research Programme in Biology and Medicine (SUR), 3 July - 25 August
Oriental languages, TBC
Wine, Terroir, Tourism, 10 - 15 July
Forensic science and criminality, 28 - 31 August
Actuarial sciences, TBC

We would be thankful if you could share this message with faculties and students who might be interested. Should you have any question regarding the UNIL Summer Schools, do not hesitate to contact us. We look forward to welcoming your students next summer!

We announce with deep regret that on January 2, 2017 after a long severe illness died assistant professor of the Department of Dermatology 3rd FM CU MUDr. Tomáš Frey, CSc.

Tomáš Frey was a great personality of the Czech Dermatovenereology and he specialized mainly in Dermatosurgery, Aesthetic dermatology and Histopathology. Especially in Dermatosurgery he raised at its last department of FNKV series of successors who had replaced him during his long illness and gave his experience to large group of young people interested in industry-up corrective dermatology.

As. Frey s As. Mardešíčovou a Dr. Dahmenem na operačním sále

As. Frey was not only an excellent dermatovenereologist but more for than a quarter century he worked for the committee of the Czech Dermathovenerology Company ČLS JEP and became its honorary member. For this important work for he had a big thanks of all of us.

Prof. MUDr. Petr Arenberger, DrSc, MBA
